

PC Software Academic Network Prices

For worldwide installation

Effective January 1, 2008

Wolverine Software offers network licensing of its GPSS/H and SLX discrete-event simulation software and its Proof Professional animation software to academic institutions. To qualify for academic pricing, an institution must sign an Academic Network Pricing Letter of Understanding (ANPLU), which limits use to research and teaching and expressly forbids use by or for non-academic parties. The products provided are full-fledged versions, fully equivalent to our commercially offered equivalents.

The total number of simultaneously running copies of GPSS/H, SLX, Proof 5, and Proof 3D is limited by a software security key (dongle) that must be installed on a network computer. Usually, but not necessarily, the dongle is installed on a network server. At any given time, any combination of products can be in use, subject only to total license count. For example, under a 10-seat license, 1-10 copies of GPSS/H, 1-10 copies of SLX, 1-10 copies of Proof 5, and 1-10 copies of Proof 3D can be used, as long as the grand total at any given time does not exceed 10.

5-Seat Network License: \$750.00
10-Seat Network License: \$850.00
25-Seat Network License: \$950.00

Ordering & Licensing

We ship on receipt of a valid university/college purchase order and an Academic Pricing Letter of Understanding completed by a professor. Please see separate instructions for information about international orders and payment.

Although we try to be as helpful as possible in handling academic questions and support issues, our low academic prices include no *obligation* to perform maintenance and support. Updates are posted on www.wolverinesoftware.com.

Shipping

Prices include UPS Ground shipping to U.S. addresses and air parcel post to Canada. Overnight or 2nd-Day shipping to U.S. destinations and all shipping to other countries are billed at UPS cost.
